Skillset

Backend
- Spring Boot, JPA, Querydsl, Spring, NestJS

Infrastructure
- Kubernetes, Istio
- CKA (Certified Kubernetes Administrator)
- ICA (Istio Certified Associate)

Messaging
- RabbitMQ, Kafka

Programming Languages
- Java, Kotlin
- Python
- Typescript

Database
- MySQL, PostgreSQL, Oracle

Cache
- Redis, Hazelcast, Memcached

Frontend
- JavaScript, jQuery
- React

Experience

Career Break / Dec 2024 – Present

Anotavis (Jun 2026 – Present)
- Designed and developed Anotavis, a local-first Markdown editor featuring live preview, file navigation, split-view editing, image management, Mermaid and KaTeX rendering, and GitHub synchronization
- https://anotavis.com

WorldQuant BRAIN International Quant Championship (IQC) (May 2026 – Jun 2026)
- Advanced from the Stage 1 qualifier to Stage 2, the National/Regional Round

EKS Infrastructure Showcase (Jan 2026 – Mar 2026)
- Built the Infrastructure Showcase using Amazon EKS, Terraform, Kubernetes, Istio, and Atlantis, creating practical examples and guides covering container security, IRSA, and other infrastructure-as-code practices

- https://nextradocs-eks-showcase.vercel.app

DailyFeed (Aug 2025 – Nov 2025)
Designed and developed DailyFeed, a social feed application built on Kubernetes and Istio using modern cloud-native architecture principles.
- https://nextradocs-dailyfeed-season1.vercel.app

ICA (Istio Certified Associate) (May 2025 – Jul 2025)
- ICA (Istio Certified Associate) · Jul 2025

CKA (Certified Kubernetes Administrator) (Feb 2025 – Apr 2025)
- CKA(Certified Kubernetes Administrator) · Apr 2025

TWAVE Co., Ltd. / May 2024 – Nov 2024 (7 months) / Full-time

IMIN Service Maintenance and Customer Support (May 2024 – Nov 2024)
- Handled follow-up processing for stage exits, uncredited points, and withdrawn users
Technologies: Java, Spring Boot, Spring Batch, JPA, JPQL, Querydsl, JdbcTemplate, MySQL

Random Box CMS Backend Development (Aug 2024 – Nov 2024)
- Responsible for CMS backend development
- Developed order and delivery list, detail, update, and deletion features
- Developed winning-probability calculation, rebalancing, and reset logic
- Integrated BizMarket product and parcel-delivery tracking APIs
- Developed image upload and download features using Amazon S3
Technologies: Java, Spring Boot, Spring Batch, JPA, JPQL, Querydsl, JdbcTemplate, MySQL

Waiker Co., Ltd. / Jun 2021 – Jun 2022 (1 year 1 month) / Full-time

Refinitiv Market Data API and WebSocket Push Server Development (Dec 2021 – Jun 2022)
- Designed and refactored an I/O pipeline processing 2,500–7,500 trade events per second, covering WebSocket delivery and PostgreSQL persistence.
- Performed raw-data mapping, extraction, and test-case development
- Planned and developed Nasdaq pre-market and after-hours open/close processing
Technologies: Java, Spring Boot, Spring AMQP, RabbitMQ, PostgreSQL, JdbcTemplate, JPA, Querydsl, Hazelcast

Waiker Securities Platform Development (Jun 2021 – Nov 2021)
- Developed APIs for stock features, including prominent-investor scores and AI scores
- Designed database tables, developed REST APIs, supported QA, and improved internal logic
Technologies: Java, Spring Boot, PostgreSQL, JdbcTemplate, JPA, Querydsl, Redis

DK Techin Co., Ltd. / Nov 2019 – Jun 2021 (1 year 8 months) / Full-time

Melon Clean Comment Platform
- Implemented filtering for abusive language in Melon comments

Maintenance and QA for Melon Comments and Comment Administration Services
- Introduced Resilience4j CircuitBreaker and maintained SQL queries

Melon Account Integration with Kakao
- Developed an AlimTalk API for account-migration notifications

Maintenance and QA for Melon Kids, HiFi, Feed, and MyLog Services
- Supported dark mode, promotions, QA, bug fixes, and other operational work

Technologies: Java, JavaScript, jQuery, Kotlin, Spring, Spring Boot, MyBatis, JPA, Querydsl, Memcached

NuriFlex Co., Ltd. / Oct 2018 – Nov 2019 (1 year 2 months) / Full-time

SK E&S Energy Monitoring System (Apr 2019 – Nov 2019)
- Developed backend and frontend features for equipment status and history
- Developed dashboards for EMS and TOC sites
- Developed SQL queries and APIs for hourly, daily, monthly, and yearly equipment statistics
- Developed data visualizations using frontend libraries
- Integrated Naver Maps APIs for clustering and other visualization features

Technologies: Java, Spring, JSTL, jQuery, Oracle, MyBatis, AmCharts, Morris.js

SUSTERA PV/ESS Monitoring System (Dec 2018 – Feb 2019)
- Developed an energy monitoring system
- Developed backend and frontend features for equipment status and history

Technologies: Java, Spring, JSTL, jQuery, MySQL, MyBatis, AmCharts, Morris.js

CJ PCC Busan Renewable Energy Innovation Center — Energy Monitoring System Operations (Oct 2018 – Nov 2019)
- Responded to WebSocket incidents and maintained the frontend
- Developed an ESS charge/discharge status dashboard

Technologies: Java, Spring, JSTL, jQuery, Oracle, MyBatis, AmCharts, Morris.js, AngularJS

Juni Korea Co., Ltd. / May 2015 – Apr 2017 (2 years) / Full-time

Telstra Hardware Replacement (Sep 2015 – Jan 2016)
- Developed remote configuration features for replacement network equipment
- Supported migration of network, security, and site-account settings from existing field equipment through a GUI-based solution
- Developed the Java client for a TCP/IP-based system

Technologies: Java, TCP/IP, SWT/JFace, Oracle

Operations and Maintenance (Aug 2015 – Apr 2017)
- Responded to bug reports and provided maintenance and operational support for Telstra Australia
Technologies: Java, TCP/IP, SWT/JFace, Oracle

Certifications

ICA (Istio Certified Associate) / Jul 2025 / The Linux Foundation / Credly

CKA (Certified Kubernetes Administrator) / Apr 2025 / The Linux Foundation / Credly

Engineer Information Processing (Korean National Technical Qualification) / May 2015 / HRD Korea

---

Education

Korea Polytechnic University (now Tech University of Korea) / Mar 2011 – Feb 2015 / B.S. in Computer Engineering (Transfer)
Gyeonggi University of Science and Technology / Mar 2006 – Feb 2010 / Associate Degree in Computer Information Systems

Notes on Education Timeline
(1) Gyeonggi University of Science and Technology
- Leave of absence for military service: 2007–2009

(2) Korea Polytechnic University (now Tech University of Korea)
- Leave of absence: 2012–2013
- Completed coursework in 2014
- Degree conferred in Feb 2015 after submission of the required TOEIC score
